

## Department of State

## § 123.25

Shipper's Export Declaration, and endorse the license to show the shipments actually made. The District Director of Customs will return a copy of each authenticated Shipper's Export Declaration to the Office of Defense Trade Controls.

(c) Except for the export of unclassified technical data, an exporter must file a Shipper's Export Declaration with District Directors of Customs or Postmasters in those cases in which no export license is required because of an exemption under this subchapter. The exporter must certify that the export is exempt from the licensing requirements of this subchapter by writing 22 CFR (identify section) and 22 CFR 120.1(b) applicable on the Shipper's Export Declaration, and by identifying the section under which an exemption is claimed. A copy of each such declaration must be mailed immediately by the exporter to the Office of Defense Trade Controls.

(d) A Shipper's Export Declaration is not required for exports of unclassified technical data. Exporters shall notify the Office of Defense Trade Controls of the initial export of the data by either returning the license after self endorsement or by sending a letter to the Office of Defense Trade Controls. The letter shall provide the method, date, license number and airway bill number (if applicable) of the shipment. The letter must be signed by an empowered official of the company and provided to the Office of Defense Trade Controls within thirty days of the initial export.

(e) If a license for the export of unclassified defense articles, including technical data, is used but not endorsed by U.S. Customs or a Postmaster for whatever reason (e.g., electronic transmission, unavailability of Customs officer or Postmaster, etc.), the person exporting the article must self-endorse the license, showing when and how the export took place. Every license shall also be returned by the exporter to the Office of Defense Trade Controls when the total value or quantity authorized has been shipped or when the date of expiration is reached, whichever occurs first.

[58 FR 39299, July 22, 1993, as amended at 61 FR 48831, Sept. 17, 1996]

### § 123.23 Monetary value of shipments.

District Directors of Customs shall permit the shipment of defense articles identified on any license when the total value of the export does not exceed the aggregate monetary value (not quantity) stated on the license by more than ten percent, provided that the additional monetary value does not make the total value of the license or other approval for the export of any major defense equipment sold under a contract reach \$14,000,000 or more, and provided that the additional monetary value does not make defense articles or defense services sold under a contract reach the amount of \$50,000,000 or more.

### § 123.24 Shipments by mail.

A Shipper's Export Declaration must be authenticated before an article is actually sent abroad by mail (see § 123.22(d)). The postmaster or exporter will endorse each license to show the shipments made. Every license must be returned by the exporter to the Office of Defense Trade Controls upon completion of the mailings.

### § 123.25 Amendments to licenses.

(a) The Office of Defense Trade Controls may approve an amendment to a license for permanent export, temporary export and temporary import of unclassified defense articles. A suggested format is available from the Office of Defense Trade Controls.

(b) The following types of amendments to a license that will be considered: Addition of U.S. freight forwarder or U.S. consignor; change due to an obvious typographical error; change in source of commodity; and change of foreign intermediate consignee if that party is only transporting the equipment and will not process (e.g., integrate, modify) the equipment. For changes in U.S. dollar value see § 123.23.

(c) The following types of amendments to a license will not be approved: Additional quantity, changes in commodity, country of ultimate destination, end-use or end-user, foreign consignee and/or extension of duration. The foreign intermediate consignee may only be amended if that party is acting as freight forwarder and the export does not involve technical data. A new license is required for these

## § 123.26

changes. Any new license submission must reflect only the unshipped balance of quantity and dollar value.

### **§ 123.26 Recordkeeping requirement for exemptions.**

When an exemption is claimed for the export of unclassified technical data, the exporter must maintain a record of each such export. The business record should include the following information: A description of the unclassified technical data, the name of the recipient end-user, the date and time of the export, and the method of transmission.

### **§ 123.27 Special licensing regime for export to U.S. allies of commercial communications satellite components, systems, parts, accessories, attachments and associated technical data.**

(a) U.S. persons engaged in the business of exporting specifically designed or modified components, systems, parts, accessories, attachments, associated equipment and certain associated technical data for commercial communications satellites, and who are so registered with the Office of Defense Trade Controls pursuant to part 122 of this subchapter, may submit license applications for multiple permanent and temporary exports and temporary imports of such articles for expeditious consideration without meeting the documentary requirements of § 123.1(c)(4) and (5) concerning purchase orders, letters of intent, contracts and non-transfer and end use certificates, or the documentary requirements of § 123.9, concerning approval of re-exports or re-transfers, when all of the following requirements are met:

(1) The proposed exports or re-exports concern exclusively one or more countries of the North Atlantic Treaty Organization (Belgium, Canada, Czech Republic, Denmark, France, Germany, Greece, Hungary, Iceland, Italy, Luxembourg, The Netherlands, Norway, Poland, Portugal, Spain, Turkey, United Kingdom and United States) and/or one or more countries which have been designated in accordance with section 517 of the Foreign Assistance Act of 1961 as a major non-NATO ally (and as defined further in section 644(q) of that Act) for purposes of that

## 22 CFR Ch. I (4–1–02 Edition)

Act and the Arms Export Control Act (Argentina, Australia, Egypt, Israel, Japan, Jordan, New Zealand and Republic of Korea).

(2) The proposed exports concern exclusively one or more foreign persons (*e.g.*, companies or governments) located within the territories of the countries identified in paragraph (a)(1) of this section, and one or more commercial communications satellite programs included within a list of such persons and programs approved by the U.S. Government for purposes of this section, as signified in a list of such persons and programs that will be publicly available through the Internet Website of the Office of Defense Trade Controls and by other means.

(3) The articles are not major defense equipment sold under a contract in the amount of \$14,000,000 or more or defense articles or defense services sold under a contract in the amount of \$50,000,000 or more (for which purpose, as is customary, exporters may not split contracts or purchase orders). Items meeting these statutory thresholds must be submitted on a separate license application to permit the required notification to Congress pursuant to section 36(c) of the Arms Export Control Act.

(4) The articles are not detailed design, development, manufacturing or production data and do not involve the manufacture abroad of significant military equipment.

(5) The U.S. exporter reports complete shipment information to the Office of Defense Trade Controls within 15 days of shipment in accordance with section 1302 of the Foreign Relations Authorization Act for Fiscal Years 2000 and 2001, and at that time meets the documentary requirements of § 123.1(c)(4) and (5), the documentary requirements of § 123.9 in the case of re-exports or re-transfers, and, other documentary requirements that may be imposed as a condition of a license (*e.g.*, parts control plans for MTCR-controlled items). The shipment information reported must include a description of the item and quantity, value, port of exit and end user and country of destination of the item.
